Luxury Aluminum Wood is an eco-sustainable product, in keeping with the GREENZONE® corporate philosophy. It is 95% composed of recycled materials, including recycled hard wood fibres that have no impact on deforestation, clear plastic bottles and high-density polyethylene (HDPE). Annual audits ensure that the Luxury Aluminum Wood complies with current environmental, health and safety regulations.

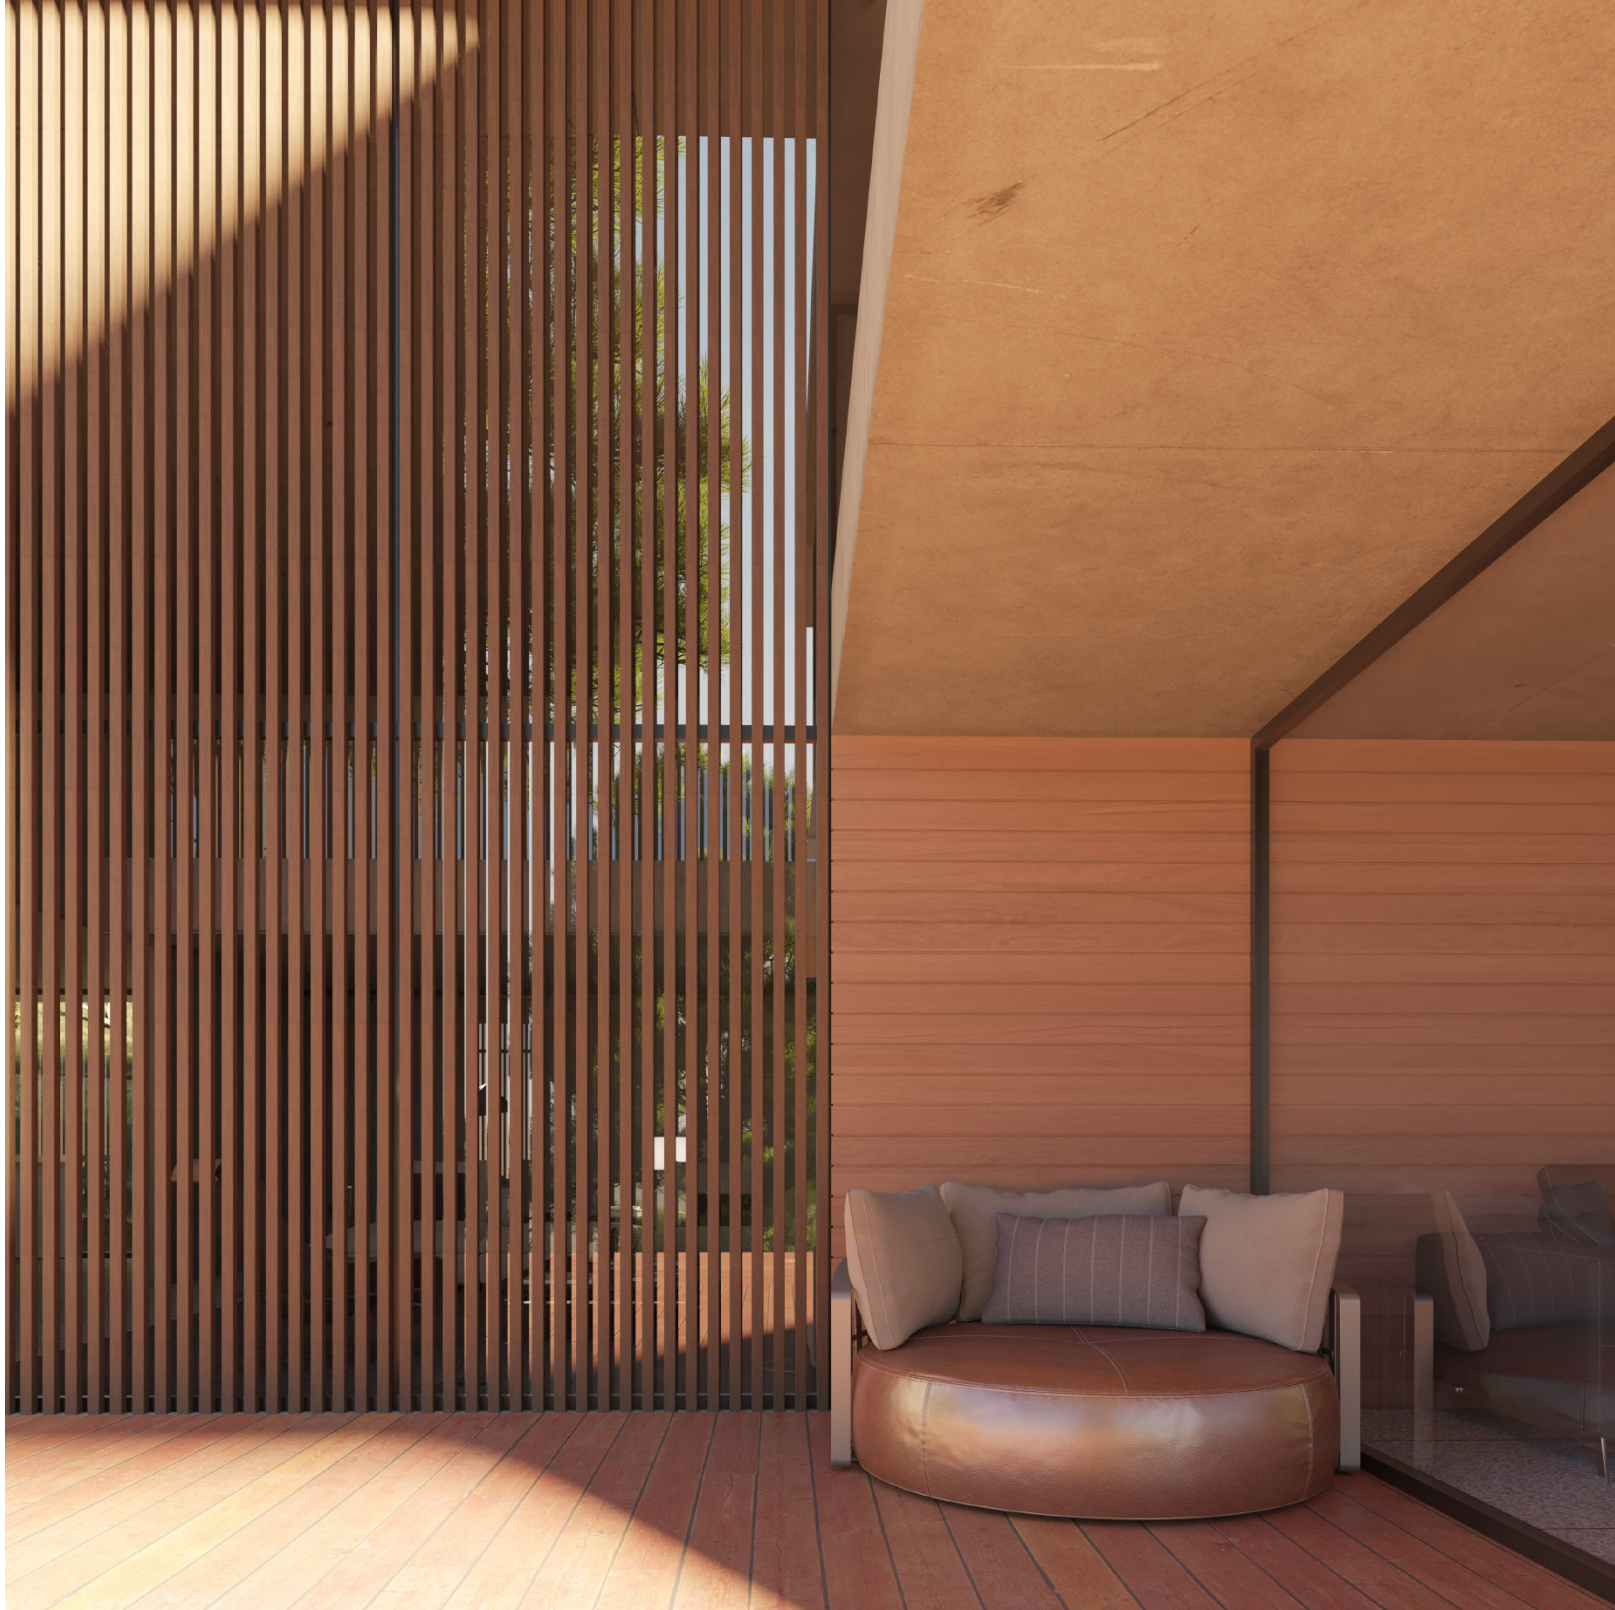

MODEL NO. / BLA2520
COLORS / IPE

The result of more than five years of research, the Luxury Aluminum Wood to demands for innovation in the composite wood sector; a material that combines the advantages of composite wood with all the charm and essential beauty of natural wood. Made from recyclable materials and protected by an external techno-polymer shield, the Luxury Aluminum Wood has been created and designed to combine unparalleled performance and beauty.
